

PRODUCT **Coal Tar Solution 20% BP**

SYNONYMS Liquor Picis Carbonis

FORMULATED PRODUCT

PRODUCTION Coal Tar Solution 20% BP is produced by mixing of Coal Tar (CAS no. 8007-45-2) with Polysorbate 80 (CAS no. 9005-65-6), pouring the mixture into Ethanol 96% and continued mixing (agitation) for at least 1hr. Obtained solution is left to stand for not less than 24h before packing.
Each liter of Coal Tar Solution 20% contains about: 200g Coal tar, 50g Polysorbate 80, 800ml of Ethanol.

CHARACTERISTICS Dark brown/black liquid with characteristic odour of Coal tar.

TEST	SPECIFICATION
Ethanol content	80.0% to 90.0% V/V
